Access Hosted Exchange Web Access (OWA/Webmail)

Vincent (Vinnie) Curle - 2023-02-09 - Hosted Exchange

Overview

Outlook OWA (Outlook Web App) is a web-based version of Microsoft Outlook that allows users to access their email, calendar, and contacts from a web browser. It is typically used by organisations as a way for employees to access their email and calendar remotely or from different devices.

Accessing Outlook OWA

1. Open a web browser (Chrome, Firefox, Safari)
2. Navigate to the following URL: https://outlook.micron21.net/owa
3. Log ino the page using your email account username and password

Having trouble

If you're having trouble with access, feel free to contact our Support team and they can complete a password reset on your behalf.
