Access your cPanel web mail

Damian JacksonUA - 2025-01-17 - cPanel Shared Web Hosting

1. Log into Webmail by browsing to your website address with '/webmail' appended to the end (e.g <https://www.domain.com/webmail>)
2. Enter your e-mail address and password, and click 'Log in'
3. If this is the first time logging in, at the top left of the window tick the box next to 'Open my inbox when I log in', then select 'Open'
4. You should now see your Webmail

If you have any issues with any of these steps, get in touch with Micron21 Support.
