Changing your cPanel shared web hosting password

Vincent (Vinnie) Curle - 2023-03-28 - Security

Overview:

Frequent changes to important passwords help to maintain secure access to your key systems and minimise your risk of compromise.

Method:

1. Log into your cPanel shared hosting service.

2. Navigate to the "**Password & Security**" tool under the "**Preferences**" category.

3. Enter your current password in the "**Old Password**" field.

4. Enter your new password in the "**New Password**" and "**New Password (Again)**" fields.

5. Click "**Change your password now!**" to complete the change.
