Creating folders and uploading files using the cPanel File Manager tool

Damian JacksonUA - 2023-02-03 - cPanel Shared Web Hosting

Overview:

Often you will need to create a Directory (folder) or upload files, such as images, to your website's file structure. You can do so by following the guide below.

Method:

1. Log into cPanel by browsing to your website address with '/cpanel' appended to the end (e.g <https://www.yourdomain.com/cpanel>)
2. Select the "**File Manager**" icon.
3. Navigate to the directory where you would like to create a folder or upload a file.

Creating a new folder:

1. At the top left of the window, select "**+Folder**".
2. Name this folder.

Uploading a file:

1. At the top of the window, towards the left, select "**Upload**".
2. Drop in or select the file you would like to upload.
