

How to access the console for a VM in mCloud

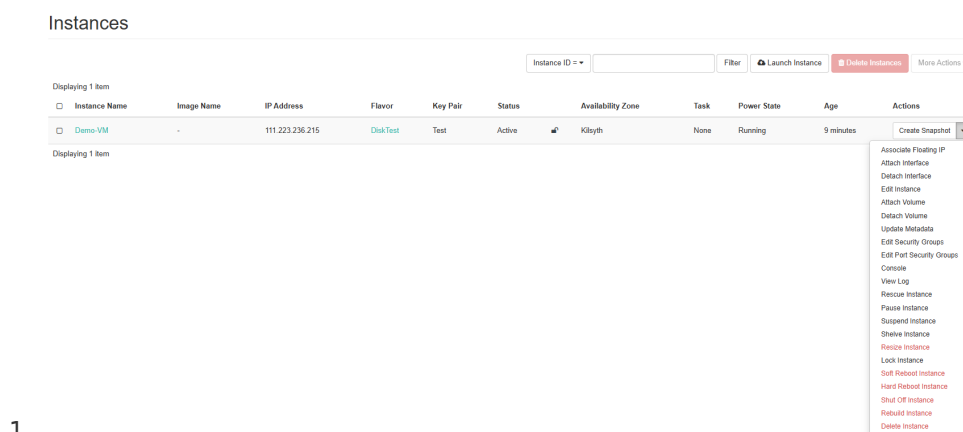

Vincent (Vinnie) Curle - 2025-03-14 - mCloud

This article details the steps to access your VM console via the mCloud Dashboard method

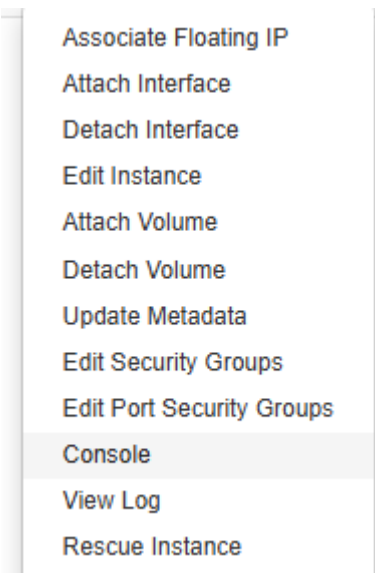

1. Log into mCloud at <https://mcloud.micron21.com/>
2. Navigate to Project > Compute > Instances

3. Locate the Instance you'd like to access via console then select the drop-down menu on the right

4. Select the 'Console' option from the list

1. A screenshot of the mCloud Dashboard menu. The menu items are: Associate Floating IP, Attach Interface, Detach Interface, Edit Instance, Attach Volume, Detach Volume, Update Metadata, Edit Security Groups, Edit Port Security Groups, Console (highlighted with a gray background), View Log, and Rescue Instance.

5. This will take you to the console tab inside of the mCloud Dashboard and you'll have access to the VMs console
