

## How to access the console for a VM in mCloud

Vincent (Vinnie) Curle - 2025-03-14 - mCloud

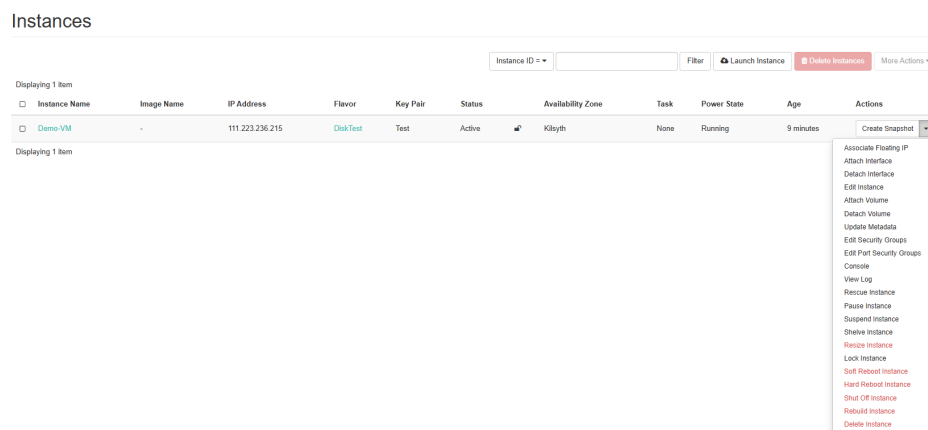

This article details the steps to access your VM console via the mCloud Dashboard method

1. Log into mCloud at <https://mcloud.micron21.com/>
2. Navigate to Project > Compute > Instances

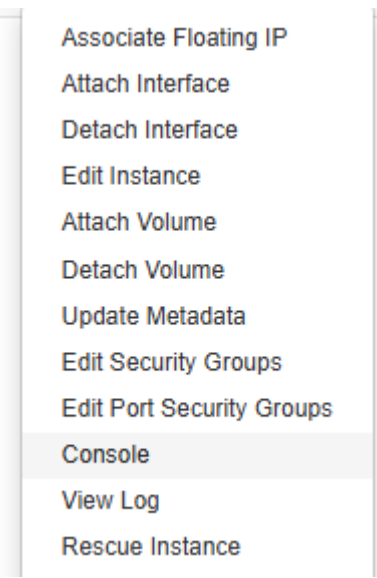

1.

3. Locate the Instance you'd like to access via console then select the drop-down menu on the right

1.

4. Select the 'Console' option from the list

1. 
  - Associate Floating IP
  - Attach Interface
  - Detach Interface
  - Edit Instance
  - Attach Volume
  - Detach Volume
  - Update Metadata
  - Edit Security Groups
  - Edit Port Security Groups
  - Console**
  - View Log
  - Rescue Instance

5. This will take you to the console tab inside of the mCloud Dashboard and you'll have access to the VMs console
