How to delete instances / Virtual Machines (VM) in mCloud

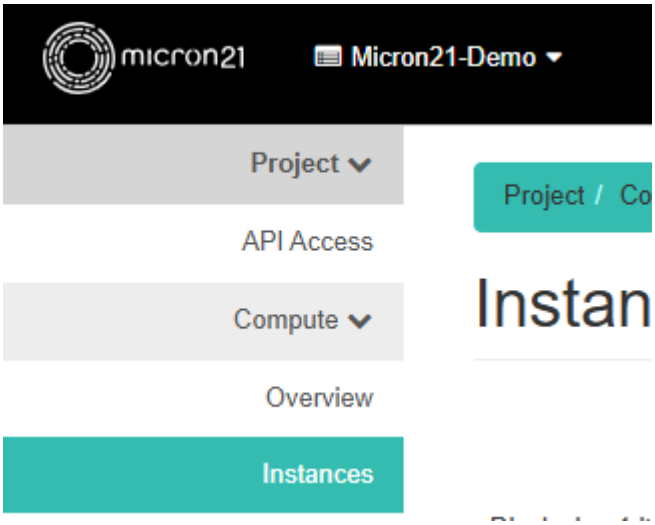

Vincent (Vinnie) Curle - 2025-01-17 - mCloud

This article details the steps for deleting instances/Virtual Machines via the mCloud Dashboard

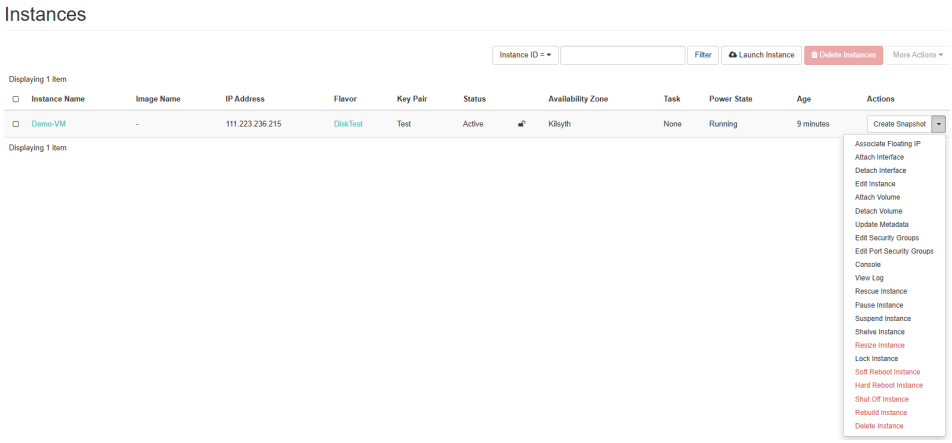

Method

1. Log into mCloud here: https://mcloud.micron21.com

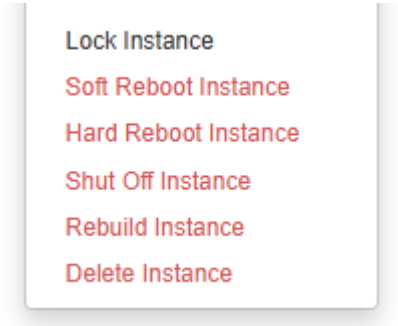

2. Navigate to Project > Compute > Instances

1. 

3. Locate the Instance you'd like to delete then click the drop-down menu on the right

1. 

4. Confirm that the instance you've selected is correct, then click the 'Delete instance' option at the very bottom of the menu.

1. 

5. Confirm the deletion by clicking the red Delete Instance button

1.
