Updating your Domain Panel Password

Vincent (Vinnie) Curle - 2023-02-27 - Domain Panel

Overview:

Updating your password regularly is important for maintaining the security of your account and protecting it from unauthorised access.

Method:

1. Log into your Domain Panel account here: https://domains.micron21.com.
2. Go to the "**Account**" Panel.
3. Under the "**Update Password**" section enter the current password in the "**current password**" field and the new password into both the "**Password**" and "**Password confirmation**" fields.
4. Click the "**Update Password**" button to complete the change.

If you do not have access to your Domain Panel account, you can reset the password using the "**Forgot Password?**" option on the login page.
